DEPARTMENT OF MINES IN INDIA.

Regulations made by the Board of Examiners under Rule 30 of the rules applying to coal-mines made under Section 20 of the Indian Mines Act, 1901, for the conduct of examinations for Colliery Managers' certificates of competency.

(1) No member of the Board of Examiners shall act as a local examiner, except in emergent cases.

(2) When possible one or more members of the Board of Examiners shall attend every examination on at least one of the days.

(3) So far as is practicable, the local examiners shall be :—

(*a*) An Inspector of Mines, who shall be Secretary to the local examiners.

(*b*) Two Mining Engineers or Colliery Managers, who must be the holders of first class certificates. Provided that a Mining Professor may be appointed instead of one of the Mining Engineers or Managers.

(4) The remuneration of each local non-official examiner shall be Rs. 150 for each examination, and a capitation fee of Rs. 2 for each first class candidate and Re. 1 for each second class candidate examined, and travelling expenses and halting allowances on the first class scale under the Civil Service Regulations; but an inspector of Mines, acting as a local examiner, shall not be entitled to any fee or remuneration whatsoever, beyond the travelling expenses and halting allowances due to him in his official capacity.

(5) The examinations will be advertised at least four months before the date of the examinations and applications, supported by original certificates as to experience and character and fees, will be received up to a date, duly advertised, not less than one month prior to the examinations. No application which is not supported by the certificates and fees referred to above will be considered by the Board if submitted after the advertised date for receiving such applications and fees.

(6) The subjects for examination shall be—

(*a*) *Arithmetic and handwriting.*

(*b*) *Practical and theoretical coal-mining*, including surface and underground arrangements, sinking, timbering, ventilation, gases met with in coal-mines, a knowledge of plans, surveying and levelling, and of the various instruments used in mining. Questions may also be asked upon geology, sanitation, hydraulics explosives, safety lamps and similar subjects. The candidates may also be required to show how to arrange the ventilation and haulage of a mine on a given plan.

(*c*) *Practical mechanics*, including steam, steam-engines, steam boilers, pumps and strength of materials; and questions may be asked upon electricity and compressed air as applied to coal-mining.

(*d*) *The Indian Mines Act, 1901*, and rules made under the Act.

(7) The examinations shall be both written and oral, and the subjects and conditions shall be the same for candidates for both classes of certificates; but the examination questions shall be made suitable for each class of certificate.

The examiners shall have power to eliminate the oral examination in the case of candidates who do not reach a standard in the written examination to be prescribed by the Board of Examiners.

8. The following shall be the maximum number of marks given for each subject:—

Subject.	First Class.			Second Class.		
	Papers.	*Viva voce.*	Total.	Papers.	*Viva voce.*	Total.
(*a*) Arithmetic and handwriting ...	50	...	50	50	...	50

10. Before each examination each candidate shall declare whether he presents himself for a first or second class certificate. No candidate for a second class certificate shall be eligible at that examination for a first class certificate, but a candidate for a first class certificate, who does not reach the

necessary standard, may, nevertheless, at the discretion of the local examiners, be recommended to the Board of Examiners for a second class certificate, if, in their opinion, he has done sufficiently well to deserve it.

11. The Secretary to the local examiners shall report, by registered post, the result of the examination giving the number of marks obtained by each candidate in each subject, o the President of the Board of Examiners, within one month of the close of the examination.

12. The questions which the local examiners intend to put in the examination papers shall be submitted in draft to the Board of Examiners, for approval, at least six weeks before the date of the examination. Answers to questions on arithmetic and those involving calculations and all plottings and levellings must be submitted to the Board of Examiners along with the question papers.

13. At least one examination for first class candidates and at least one examination for second class candidates shall be held annually in one of the Bengal or Bihar and Orissa coal-fields; and in other parts of India examinations will be held whenever, in the opinion of the Board of Examiners, the number of candidates in a coal-mining centre justifies the holding of an examination.

14. No candidate will be allowed to take part in the examination until he has produced an authorization from the Board of Examiners.

15. Every candidate before taking his seat must sign a register, in which he will be given a definite number. He must sign his name and write his registered number at the top of every page of the paper on which he writes the answers to the questions.

16. The number of the question must be given in bold figures before the answer to each question.

17. The calculations and work by which a result is obtained must be clearly shown in immediate connection with the answer to each question.

18. Answers must be strictly confined to the questions asked.

19. Sketches may be made to make answers clear.

20. When sketches are asked for, it should be understood that, unless otherwise stated, freehand sketches, with dimensions, are all that is necessary, and candidates should not spend time in making finished drawings.

21. Any candidate speaking to any other candidate during the examination, or using any book, notes or private paper, or acting in any manner which the examiners consider improper will be liable to be disqualified at their discretion. The Board of Examiners may in such a case use their discretion as to allowing the candidate to sit at any future examination.

22. When a candidate has completed the answers to the questions, or when the time allowed for answering the questions has elapsed, or he has been disqualified, he must hand the paper of questions and his answers to the examiners, and at once leave the examination room.

23. A time table will be supplied to each candidate at the commencement of the first day's examination.

24. The oral examination will be held at a subsequent date. Only those candidates who obtain a certain degree of proficiency in the written examination will be examined orally. Due notice of time and place will be sent to each candidate required by the examiners for oral examination.

25. The number of marks given for each question will be shown in brackets at the end of the question.

26. Ink and paper will be provided, and no paper other than the official paper provided may be used. Candidates must bring their own pens and pencils, drawing pens and drawing instruments, including a protractor.

All previous Regulations are hereby cancelled.

It will rest with the Civil Service Commissioners to determine whether candidates are qualified in respect of nationality, age, character, education, and war service as defined in the following Regulations:—

2. Every candidate for appointment to be made under these Rules must have served in His Majesty's Naval, Military, or Air Forces during the war for at least one year, or, if his service be less than one year, have been retired or discharged on account of wounds or sickness resulting from such service.

Warning (Regulation 7).—Any attempt on the part of a candidate to enlist support for his application through Members of Parliament or other influential persons will disqualify him for appointment. GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 553L., dated Calcutta, the 17th March, 1919.—The following further Report of the Select Committee, to which the Bill was recommitted, was presented to the Bengal Legislative Council on the 13th March, 1919 (with the Bill as further amended by the Committee), and is hereby published for general information :—

THE BENGAL VILLAGE SELF-GOVERNMENT BILL, 1919.

FURTHER REPORT OF THE SELECT COMMITTEE ON THE BENGAL VILLAGE SELF-GOVERNMENT BILL, 1919.

In pursuance of the motion passed by the Bengal Legislative Council on the 18th February, 1919, recommitting the Bengal Village Self-Government Bill to the Select Committee, we, the undersigned members of that Committee, have met and reconsidered the provisions of the Bill in the light of the amendments contained in Appendix A to the list of business for the meeting of Council held on the 18th February.

It has not been thought necessary to make specific mention of a few minor verbal changes that have been made in the Bill. The further amendments made by the Select Committee on recommitment are, as far as possible, printed in *italics* within square brackets.

2. We first considered the amendments which stood in the name of the Hon'ble Member in charge of the Bill and decided to recommend that the following should be adopted, namely :—

(*1*) In the Bill as submitted to the Council there was a discrepancy between clause IA and clause IB as to the date from which the repeal or amendment of the provisions of the Bengal Local Self-Government Act of 1885 and of the Village-chaukidari Act, 1870, would take effect. To remove this discrepancy, and at the same time to arrange the sub-clauses in a more convenient and concise form, these two clauses have been redrafted.

(*2*) We have thought it advisable to make the meaning of sub-clause (*2*) of clause 5 more clear by substituting the word "entitled" for "qualified."

(*3*) (*clause 25.*—We had previously discussed the advisability of conferring on union boards some power to fine chaukidars, but the proposal was dropped. The amendments filed in Council, however, seem to indicate a feeling that union boards should have some such powers, and on reconsideration we have authorised union boards to impose fines up to a quarter of a month's salary.

(*4*) We think it advisable that in clause 32 (*3*), words should be inserted to make it quite clear that sources of water-supply on which public money is spent may be reserved only for the benefit of the public.

(*5*) We have decided to adopt a redraft of the opening words of clause 44, expressing the meaning of the original words in a more clear and succinct form.

(*6*) It was always the intention that a person appointed under clause 59A should collect any arrears of pay of chaukidars, etc., and should also realise any incidental expenses incurred in so doing. On re-examining the clause, we were of opinion that it did not convey this intention with sufficient explicitness. We have therefore made such verbal amendments as seemed necessary.

(*7*) In distributing the duties of a superseded union board, it is probable that some of its duties, such as those relating to roads, water-supply, sanitation, etc., may be made over to the local board. As a local board does not come within the meaning of the words "person or persons", we decided that in clause 62 "local authorities" (which term includes local boards) should be added to "person or persons."

(*8*) With reference to clause 68, we have accepted a suggestion made to us that the exemption granted to share-holders of joint-stock companies should be extended to members of co-operative societies.

(*9*) We consider that a slight modification of clause 72 should be made so as to make it clear that the provisions of that clause apply to suits against a union board as a corporate body as well as to suits against individual members or officers.

(*10*) An amendment filed in Council by the Hon'ble Kumar Shib Shekhareswar Ray drew our attention to the fact that the Bill contained no provision as to the time within which an application for the transfer of a suit from a union court should be filed. It would be inadvisable, for instance, to allow a party, who finds that the case is going against him, to obtain a transfer at the last moment when the decision is about to be pronounced. We propose the insertion of a new clause 89A, providing that, if before the commencement of the hearing, the defendant notifies to the union court that he has applied, or that he intends to apply, for the transfer of the suit to the ordinary civil court, the union court shall postpone the trial to enable the defendant to make his application and obtain orders. In the proviso to clause 83 a reference to the new clause 89A has been inserted.

(*11*) In clause 108 we have adopted a small verbal amendment to make it clear that the clause covers the dues of a union bench as well as those of a union court.

(*12*) In clause 26, sub-clauses (*1*) (*xi*) and (*2*), reference is made to rules relating to the duties of dafadars and chaukidars, but no mention is made of rules regarding the powers of those officers. We therefore thought that the mention of powers in sub-clause (*2*) (*h*) of clause 111 should be omitted, and that provision should be made therein only for rules regulating the duties of dafadars and chaukidars.

(*13*) An amendment stood in the name of the Hon'ble Babu Akhil Chandra Datta to the effect that the income derived from all pounds and ferries within the union should be credited to the union fund. As regards pounds, this can be done by notification under section 31 of the Cattle-trespass Act, 1871, and it is usual when a new union committee is constituted, after consulting the district board, to make over all pounds in the union to the union committee. No modification of the law will be necessary to enable similar action to be taken in the case of union boards. As regards ferries, the case is somewhat different. The law at present only allows public ferries to be made over to a district board. We think it desirable that the Local Government should be empowered to make over a public ferry to local authorities other than district boards, and have, therefore, provided, by an addition to schedule I. for the amendment of section 35 of the Bengal Ferries Act, 1885.

(*14*) As we found that item 20 of schedule I was not altogether in conformity with clause 46 of the Bill, we amended the item by the omission of the words "for the purposes of this Act."

3. We then proceeded to examine certain other amendments in the Appendix, which the Hon'ble Member in charge of the Bill informed us that Government would have been prepared to accept if, in the course of discussion, it appeared that they met with the general approval of the Council. We decided to adopt the following amendments :—

(*a*) In sub-section (*4*) of clause 4, we agreed that the words "any member or members" should be substituted for the words "the full number of members prescribed," and that the words "vacancy or" should be inserted before the word "vacancies". In this connection, we have made provision in clause 111 for rules regarding the action to be taken in the case of the failure of an election.

(*b*) We decided to accept the proposal that, though only persons actually living within the union should be allowed to become members of the union board, the residential qualification of voters should be less stringent. As regards voters, we thought it sufficient to prescribe that they must have a place of residence within the union. Our acceptance of these proposals necessitated some modifications in clause 5.

(*c*) We also adopted a further amendment to clause 5 proposed by the Hon'ble Babu Ambika Charan Mazumdar to the effect that the qualified members of a joint undivided family should nominate one of their members to vote on behalf of the family.

(*d*) With reference to clauses 12 and 16 we accepted proposals that the powers of the district magistrate in regard to the removal of the president or a member of a union board should be transferred to the district board.

(*e*) We agreed to amend clause 15 in the manner proposed by the Hon'ble Babu Kishori Mohan Chaudhuri, providing that a president's intention to resign should be notified in writing, and should be communicated to the union board as well as to the chairman of the district board. We also adopted a small amendment to make it quite clear that the union board has full power to accept the resignation of its vice-president.

(*f*) We have made an important amendment by adopting, with slight modifications, the amendment to clause 22A proposed by the Hon'ble Rai Radha Charan Pal Bahadur. We thus confer on union boards the same powers of nominating and dismissing dafadars as they are given in regard to chaukidars. We consider that punishments other than dismissal are more appropriately dealt with under clause 25, as now amended by us.

(*g*) We have adopted the amendments to sub-clause (*1*) (*i*) of clause 26 proposed by the Hon'ble Babu Akhil Chandra Datta, to the effect that the chaukidar should keep the president as well as the police informed of unnatural deaths and certain offences committed within the union and of disputes likely to lead to riots. We have also inserted a new sub-clause (*ixa*), based on an amendment proposed by the Hon'ble Babu Ambika Charan Mazumdar, imposing on the chaukidar the duty of giving information to the union board of the pollution of public sources of water-supply, encroachments on, and obstructions to, roads and waterways, and damage to public property.

(*h*) We thought it advisable to omit sub-clause (*ii*) (*g*) of clause 26, as it presumes a knowledge of the Fugitive Offenders Act, 1881, which a chaukidar cannot be expected to possess.

(*i*) Accepting the principle of amendments proposed by the Hon'ble Maulvi A. K. Fazl-ul Haq, we have inserted words in clauses 29 and 30 requiring that, when notices are issued under those clauses, reasonable time must be allowed for compliance with the notices before recourse is had to the further powers of the union board.

(*j*) In prescribing the persons liable to assessment for union rate, clause 38 followed the lines of the Bengal Local Self-Government Act, which was so amended in 1908 as to bring under assessment all owners of tanks, wells and water-courses. After examining the reports of the discussions in Council we considered that the arguments adduced for the change made in 1908 are no longer adequate or convincing. We came to the conclusion that owners of tanks, wells and water-courses should not be taxed as such, and that the soundest course to follow would be to revert to the principle established by the Village-chaukidari Act of 1870, namely, that the persons to be assessed should be the residents and owners of buildings within the union.

(*k*) We have agreed to the amendment filed by the Hon'ble Kumar Shib Shekhareswar Ray to the effect that the penalty for default in payment of rate should be reduced to one-half of the arrear. Under the Chaukidari Act the penalty is equal to the arrear ; but as the amalgamated union rate under this Bill may be a larger sum than the chaukidari rate, a lower rate of penalty may be adequate.

(*l*) Clauses 80 and 96 contained provisions for a retrial in case of a serious failure of justice. We have accepted amendments filed by the Hon'ble Rai Mahendra Chandra Mitra Bahadur, and have now omitted the word "serious".

(*m*) Under clause 47 all fines realized by a union bench must be paid into the union fund. However, to remove all possibility of misconception, we have accepted the proposal of the Hon'ble Babu Akhil Chandra Datta to re-affirm the principle in a new sub-clause, which we have numbered 81 (*4*).

(*n*) We have so amended clause 85 as to make it clear that if the cause of action lies to any extent within the area under its jurisdiction, a union court may try a suit arising therefrom.

(*o*) In the original Bill, clause 100 was introduced in order to provide a penalty for a plaintiff who takes to the ordinary civil court a suit which he ought to have instituted in the union court. We have reconsidered this matter, and have come to the conclusion that little good is likely to be done by the artificial device of the proposed penalty, which, moreover, would probably be rarely or never enforced. We have therefore adopted the amendment of the Hon'ble Kumar Shib Shekhareswar Ray, and have omitted clause 100.

(*p*) Agreeing with the Hon'ble Maulvi A. K. Fazl-ul Haq, we have omitted item 1 of schedule III.

4. As we had all individually examined the amendments filed in Council, we finally discussed those amendments to which our attention was drawn by any of our members. The result was that we were able to accept in modified forms some amendments, among which were included the following :—

In connection with clause 41 we agreed that, while avoiding undue formality, it would be fair that some provision should be made to insure the making of a proper inquiry before orders changing an assessment are passed. We have therefore inserted in clause 41 the words "after such inquiry as may be necessary." Inquiries of this nature will usually be made by circle officers, and the Bill also empowered those officers to call for assessment papers and to pass orders thereon ; but we recognise a certain amount of justification for the contention that orders on assessment papers should be passed only by the district magistrate or subdivisional officer. We have therefore omitted the circle officer in item 8 of schedule III.

5. During the scrutiny to which the Bill has been subjected in the course of our re-examination of its provisions, certain defects and mistakes of drafting have come to light. Among those which we have now removed, the following are the most important :—

(*a*) In connection with clause 106 we have endeavoured to remove any doubt as to whether authority to appear as an agent need be by a formal document. It will be for the union bench or court to satisfy itself that the person appearing for an absent party is a proper representative.

(*b*) Item 10 in schedule III was scarcely one of true delegation. We have now omitted it, and have added subdivisional magistrates and circle officers to the officers specified in clause 56.

(*c*) Under sub-section (*2*) of section 52 of the Bengal Local Self-Government Act of 1885, fines imposed by a union bench for breaches of district board by-laws must be credited to the district fund. Our attention was drawn to the conflict between that provision and clause 47 of the Bill. We have now removed the discrepancy by providing in schedule I for an amendment of section 52 of the Bengal Local Self-Government Act of 1885.

6. We recommend that the Bill, as thus amended, be passed.

CALCUTTA ;
The 8th March, 1919.

* This member signed subject to his Note of Dissent appended.

N.B.—The Hon'ble Mr. H. P. Duval was prevented by illness from attending the meetings of the Select Committee.

NOTE OF DISSENT BY THE HON'BLE BABU BHABENDRA CHANDRA RAY.

I WAS prevented by certain unavoidable circumstances from taking part in the deliberations of the Select Committee this time. It is, therefore, with some amount of diffidence that I make the following observations :—

In my opinion, the principles of the following amendments, contained in appendix A to the list of business for the meeting of Council held on the 18th February last, should have been accepted and embodied in the Bill.

Amendment No. 18.—Appointment of members should be made by the district magistrate only upon the recommendation of the district board.

Amendments Nos. 24 and 25.—Upon failure of election of the members of a union board on the first occasion, a second election should, as a rule, be attempted.

Amendment No. 37.—Teachers may not sometimes be qualified to vote under the existing provisions of the Bill, though they may be able to exercise the franchise properly and act as members of the union board with credit. Teaching should, therefore, be an independent voting qualification.

Amendments Nos. 159 and 160.—Some Government contribution to the union fund should be made a statutory obligation.

Amendments Nos. 178 to 182.—The district board should be made bound to make a contribution to the union fund.

Amendment No. 188.—The minimum contribution from the district fund should be fixed at half the land cess realised within the union. In the alternative, rules should be framed under clause (*iii*) to secure this object, as suggested in *amendment No. 270.* Reference may, in this connection, be made to the recommendations of the Decentralization Commission quoted in my previous note of dissent.

Amendment No. 204.—Powers of supersession of a union Board should be exercised by the district magistrate only with the formal concurrence of the chairman of the district board when the latter is not the district magistrate himself.

Amendments Nos. 207 and 208.—Upon supersession of a union board, its functions under Part I of the Bill should be exercised by the local board; those under Part II may be exercised by a nominee of the district magistrate.

Amendments Nos. 221 to 224 and 236 to 238.—Three should be the minimum number of members to constitute a bench or court.

Amendment No. 227.—Some revisional powers should be vested in the district magistrate over decisions of the union bench. Under the present Bill, he would be powerless to order an acquittal even if he be convinced of the innocence of an accused person, the only course left to him in such circumstances being to order retrial of the accused person by a court of competent jurisdiction.

NOTE OF DISSENT BY THE HON'BLE BABU MAHENDRA NATH RAY, C.I.E.

I sign the report subject to the following reservations :—

(*1*) I am of opinion that legislative provision is needed to *require* district boards to make suitable annual grants to union boards to enable the latter to carry out the purposes of the Act, quite apart from provision for allotment of funds proposed in clause 35 for the management of institutions, etc., to be made over to them. It seems to me that to enable the union boards properly to carry out their duties under Chapter III, allotment of funds to supplement the income from the union rate is absolutely necessary.

(*2*) I am of opinion that clauses 80 and 96 should be so amended as to empower the district magistrate or the district judge, as the case may be, in a proper case to cancel or modify the decision of a union bench or a union court without directing a retrial.

A BILL

to develop self-government in the rural areas of Bengal.

WHEREAS it is expedient to develop the system of self-government in the rural areas of Bengal;

And whereas the sanction of the Governor General has been obtained under section 79, sub-section (*2*) and sub-section (*3*), of the Government of India Act, 1915, to the passing of this Act; 5, c 61

It is hereby enacted as follows:—

PART I.

CHAPTER I.

PRELIMINARY.

Short title, local extent and commencement

1. (*1*) This Act may be called the Bengal Village Self-Government Act, 1919.

(*2*) It extends to the whole of Bengal, except the town of Calcutta and any area which has been or may hereafter be constituted a municipality, under the provisions of the Bengal Municipal Act, 1884. [*Cf.* Act VIII of 1885, s. 1 (3).] Ben. Act III of 1884.

Explanation.—The words "the town of Calcutta" mean, subject to the exclusion or inclusion of any local area by notification under section 637 of the Calcutta Municipal Act, 1899, and subject to the provisions of section 147 of the Calcutta Improvement Act, 1911, the area described in schedule I to the Calcutta Municipal Act, 1899: Ben. (*a*) With reference to the reply to unstarred question No. XI, asked at the Council meeting held on the 26th November, 1918, regarding the selection of text-books for secondary and primary schools, will the Government be pleased to state whether there is any necessity to maintain two lists (A and B) of approved text-books and to mark certain books therein with *asterisks?*

(*b*) What is the present average number of text-books approved for each class of secondary and primary schools in Eastern and Western Bengal, from which the local bodies and the school authorities are expected to make their selection?

(*c*) Is it a fact that some uncertainty is felt by publishers as to the probable sale of individual text-books, and that as a result, there is no proper supply thereof in the market this year?

(*d*) Are the Government considering the desirability of reducing the lists to a reasonable size after retaining only such books as are considered to be of superior merit?

(*e*) When do the Government expect to introduce a uniform syllabus of studies for secondary and primary schools in the province?

Answer by the Hon'ble MR. O'MALLEY :—

"(*a*) and (*d*) Government are considering the formation of a committee of officials and non-officials to deal with the question.

(*b*) The information is not available.

(*c*) It is inevitable that so long as teachers are at liberty to select text-books, publishers should be unable to forecast their sales with certainty. Government have no information as to whether there is a proper supply this year or not.

(*e*) A co-ordinated syllabus for all classes has been prepared. The syllabus for secondary schools was submitted to the University Commission and it is proposed to await their report. The Director of Public Instruction expects to submit the primary school syllabus to Government shortly and it is intended to publish it for criticism."

Duties of the sanitary staff of municipalities.

(*a*) Is it a fact that the duties of the sanitary staff attached to municipalities relate, primarily, to conservancy work, and that there are no responsible agencies at work directly under the municipalities or otherwise, for the prevention of diseases?

(*b*) Will the Government be pleased to state how matters stand at present so far as the question of prevention of diseases is concerned?

Answer by the Hon'ble MR. O'MALLEY :—

"(*a*) and (*b*) Health officers and sanitary inspectors are appointed under section 349 D of the Bengal Municipal Act 1884, by municipalities of which the income is Rs. 10,000 a year or more. From the model rules prescribing the duties of health officers and sanitary inspectors, of which copies are

Progress in the re-excavation of certain *khals*.

With reference to the answer given to unstarred question No. XIV, clause (*b*), of the 5th March, 1917, will the Government be pleased to state what progress, if any, has been made in the matter of the re-excavation of the Taltala-Sreenagar, Taltala-Lohajang and Shekharnagar-Lohajang *khals*?

Answer by the Hon'ble MR. COWLEY :—

"The correspondence concerning these three *khals* has already been placed in the hands of the Hon'ble Member. In June, 1916, the Commissioner of Dacca forwarded certain proposals about the excavation of *khals* in the Munshiganj subdivision which the Dacca District Board had considered and requested that an Expert might be deputed to advise the District Board on the feasibility of the suggestions made. In July of the same year the Commissioner of Dacca was informed that owing to the demands of the war no Expert Engineer was available for this special duty; but that the Superintending Engineer of the Public Works Department would give his opinion on any proposals which the District Engineer of the Dacca District Board might prepare after a preliminary investigation. Nothing further has been heard from the District Board in the matter.

The officer who has been placed on special duty to consider improvements in drainage and navigation in Dacca district has, however made surveys in connection with the second of the three *khals* mentioned by the Hon'ble Member; as regards the other two the initiative lies with the District Board."

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) The general policy is the organisation of measures for the prevention and mitigation of disease and the general improvement of public health.

(*b*) The chief problems are—

(1) the introduction of a proper public health organisation in rural areas;

(2) researches into the causation, prevalence and distribution of disease;

(3) the improvement of the sources of water-supply;

(4) anti-malarial measures, such as drainage schemes and the distribution of quinine; and

8.

Appointment of a District Engineer by the District Board of Burdwan.

(*a*) With reference to the recent appointment of a District Engineer by the District Board of Burdwan, will the Government be pleased to state whether it offends in any way against certain executive instructions of Government about the preferential treatment of candidates educated at the Sibpur College, contained in a letter to the Commissioners of Divisions, No. 929T.—L. S.-G., dated Darjeeling, the 30th September, 1911?

(*b*) How many duly qualified candidates were there for the appointment; and how many of them were Sibpur graduates?

(*c*) How do the qualifications of the selected candidates compare with those of each of the Sibpur candidates rejected by the District Board?

(*d*) Were there no Sibpur graduates among the candidates so rejected whose qualifications were "approximately equal" to those of the selected candidate?

(*e*) Where was the selected candidate educated, and employed previous to his present appointment?

Answer by the Hon'ble MR. O'MALLEY :—

"(*a*) District Engineers are appointed by district boards, subject to confirmation by Divisional Commissioners. The letter referred to stated that the rules under the Local Self-Government Act contained no provision giving a privileged position to candidates educated at the Sibpur College, but Government desired that in three divisions preference should ordinarily be given to applicants from that College, provided that their qualifications were approximately equal to those of others who may offer their services. It is reported that the District Board of Burdwan was of opinion that the qualifications of the selected candidates were greatly superior to those of any of the Sibpur College candidates. It does not therefore appear that the District Board failed to comply with the wish expressed in the letter in question.

(*b*) There were 37 qualified candidates, of whom 21 were graduates of Sibpur.

(*c*), (*d*) and (*e*) The selected candidate was educated at the Jubbulpore College and obtained the B.Sc. degree of the Allahabad University, securing a gold medal for general proficiency and a post-graduate scholarship. He was subsequently at the Roorkee College, where he passed the Assistant Engineers' examination. He was employed first as Engineer of the Burdwan Municipality, which he resigned on being appointed as Assistant Engineer in the Public Works Department, Central Provinces. He served there as Assistant

Control of Government over aided and unaided primary schools.

(*a*) With reference to the answer to my unstarred question No. 13 asked at the last meeting of the Council, regarding free studentships in primary schools, will the Government be pleased to state whether the aided schools are not under some control of Government?

(*b*) In what respects, if any, do the aided and unaided schools differ in the matter of supervision and control by the Department of Education?

(*c*) Are the authorities of district boards authorized to admit any number of free students in aided primary, middle English and middle vernacular schools?

Answer by the Hon'ble MR. O'MALLEY :—

"(*a*) and (*b*) The control over aided primary schools is vested in District Boards, subject to the rules made by Government under the Local Self Government Act of 1885 The Education Department has no direct control over them or over unaided primary schools. The difference between them is that aided schools are, and unaided schools are not, subject to the educational rules issued under the Local Self-Government Act.

(*c*) Rules for the award of free studentships in Government and Government-aided schools have been issued by Government, but so far as Government are aware there are no such rules for schools aided by District Boards."

Manufacture of salt by Indians.

(*a*) Is it a fact that no Indian has been granted permission to manufacture salt in Bengal?

(*b*) If so, will the Government be pleased to state the names of the Indians who applied for such permission, and the reasons for refusal of permission in each case?

(*c*) What are the circumstances that differentiate these applications from those that have been successful?

Answer by the Hon'ble MR. DONALD:—

"(*a*) Yes.

(*b*) and (*c*) The Hon'ble Member is referred to the statement given in reply to question No. LVIII (unstarred), asked by the Hon'ble Babu Brojendra Kishor Ray Chaudhuri at the Council meeting held on the 19th August, 1918. The petition of Abdul Barik Haji of Sandip was rejected because the petitioner asked for a special concession in the matter of the salt duty which could not be entertained; and that of Mr P C. Dass because he desired to manufacture under conditions which did not provide adequate safeguards for the Government revenue. The license granted to Mr Glen George provides for payment of the full duty on all salt manufactured, and secures adequate safeguards to ensure such payment."

Government grant to the Society for the improvement of the backward classes.

(*a*) Is it a fact that Government have made certain grants to the Society for the improvement of the backward classes? If so, will the Government be pleased to state the particulars about these grants?

(*b*) Is it a fact that the primary schools conducted by the said Society do not conform to the rules of the Department of Education either in the matter of equipment or the curriculum of study?

Questions and Answers.

(*c*) If so, are the Government considering the desirability of inquiring whether the said system of instruction is satisfactory, so far as it goes?

(*d*) What is the average cost of maintenance of a school under the management of the said Society, and how does it compare with the minimum cost of maintenance of a primary school recognised by the Department?

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) Government have sanctioned a recurring grant of Rs. 3,000 per annum for a period of 5 years and a non-recurring grant of Rs. 5,000 to the Society for the improvement of the backward classes on the understanding that the Society complies with the following conditions :—

(*1*) That it spends at least Rs. 2 400 a year in grants-in-aid to schools under its control.

(*2*) That it adopts the departmental curricula and the rules and orders issued by the Department except in cases where the Inspector of Schools agrees to a departure.

(*b*) and (*c*) This is the first year of the grant and it is not yet known whether the departmental rules are followed in all the schools under the Society. The grant is made on condition that such rules are complied with

(*d*) The average monthly cost of the maintenance of a school under the Society is reported to be about Rs 8·9, that of primary schools of all classes in 1916-17 was Rs. 9·7 "

(*b*) Is it a fact that in June last the Inspector of Schools, Dacca Division, asked the Secretary of the school to reconstruct the committee in accordance with the said rules and that on the 20th December last the committee sent up the names of the members of the old committee without allowing the parents and guardians of the pupils and the benefactors of the school an opportunity to elect or nominate their representatives?

(*c*) Is it also a fact that the parents and guardians of the pupils and the benefactors of the school made an application to the President of the school

committee to allow them to choose their representatives for the new committee, but that no action was taken on this application?

(*d*) Are the Government considering the desirability of asking the Director of Public Instruction to inquire into the matter and require the President of the school committee to reconstitute the school committee in accordance with the rules referred to above?

Answer by the Hon'ble MR. O'MALLEY :—

"(*a*) A representation of this nature was submitted to the Inspector of Schools on January 9th, 1919. Previous to this, on December 31st, 1918, another representation had been submitted to the Inspector of Schools, signed by other parents and guardians, asking that the existing committee might be allowed to continue for the full term of 3 years.

(*b*) Yes. On the 20th December, 1918, the committee resolved that as parents and guardians, as well as benefactors of the School, were represented on it and the term of office of most of the members would expire in about 1½ years, it was not necessary to make any change in the constitution of the committee.

(*c*) Yes. As the committee had been reconstituted in July, 1917, and was working satisfactorily, the District Magistrate was of opinion that the existing committee should be allowed to continue for its full term of 3 years.

(*d*) The Director of Public Instruction has approved of the continuance of the existing committee, and it is not proposed to take any further action until the expiry of the full term of 3 years."

(*i*) the number of societies which were sent into liquidation under the orders of the Registrar, Co-operative Societies, since the 1st April, 1912;

(*ii*) the date of registration of each such society;

(*iii*) the amount of working capital with which each such society started, and the amount of such capital at the time when it was sent into liquidation;

(*iv*) the amounts realized in each case by liquidators from members, out of their total debts to the societies under liquidation;

(*v*) the percentage of cases in which the liquidators realized monies from members by compulsory processes; and

(*c*) In how many cases did the Registrar or his gazetted assistants supervise the work of liquidation, and in what manner was the supervision exercised?

Answer by the Hon'ble MR. MCALPIN :—

" (*a*) (*i*) (*ii*) and (*iii*) (second part) Statements A and B are laid on the table so far as information is available. Information regarding the first part of (*iii*), (*iv*), (*v*) and (*vi*) is not available.

(*b*) In order to keep himself abreast of the working and financial condition of societies the Registrar of Co-operative Societies, Bengal, has issued special instructions to auditors to classify societies at the time of the annual audit.

Questions and Answers.

Societies which are marked ' bad ' or ' hopeless ' receive the personal attention of the Registrar or the Joint Registrars.

As soon as a society begins to show signs of deterioration attempts are made to reconstitute it. The Central Bank staff and the Government staff keep a strict watch over such a society and the Department of Co-operative Societies carefully watches the progress of reconstitution. When all possible attempts at reconstitution fail and the continuance of such a society becomes a menace to the interest of financiers and a danger to the neighbouring societies, the society is liquidated after a careful inquiry into its working, constitution and financial position under section 35 (*1*) of Act II, 1912. The steps described were taken in all cases.

(*c*) In almost every case the Registrar or his gazetted assistants supervised the work of liquidation. Circle Inspectors are now appointed liquidators in almost every case.

Supervision is being maintained where possible by local inspection, by keeping a close watch over the progress of liquidation and by insisting on regular returns as to the progress made."

Is it a fact—

Appointment of a Secretary to the Madaripur Co-operative Central Bank.

(*i*) that the Directors of the Madaripur Co-operative Central Bank resolved some time ago to appoint a paid secretary; and

(*ii*) that the resolution of the Directors had the approval of the Registrar, Co-operative Societies, and that this vacancy was duly advertised; but the Subdivisional Officer of Madaripur (who is the Chairman of the Central Bank) wanted to make the appointment himself without reference to the opinion or wishes of the Directors?

Answer by the Hon'ble MR. MCALPIN :—

"(*i*) Yes.

(*ii*) The answer to the first half of the question is in the affirmative. As regards the second half, the facts do not warrant this conclusion. The Registrar was requested by the Central Bank to take the appointment into his own hands, but he declined to do so on the grounds that the secretary was to be the servant of the Central Bank and that he should therefore be appointed by the Central Bank."

(*ii*) that the said Anwar Hosain was serving under the Bank at the time and had been complimented by the Registrar, Co-operative Societies, for his good work; and

Questions and Answers.

(*iii*) that the Subdivisional Officer influenced the Registrar against the decision of the Central Bank?

(*b*) Did the said Anwar Hosain resign immediately after his appointment? If so, why?

(*c*) Is it a fact that the Registrar threatened to withhold the said Anwar Hosain's license under section 17 of the Co-operative Societies Act, 1912 (II of 1912), if he did not resign?

(*d*) Is it a fact that the said Anwar Hosain did not then resign?

(*e*) Is it a fact that the Registrar subsequently induced the said Anwar Hosain to resign?

(*f*) Is it a fact that the said Anwar Hosain has been appointed a Government auditor on a higher salary?

Answer by the Hon'ble Mr. McALPIN :--

"(*a*) (*i*) On the 26th January, 1918, the Board of Directors of the Madaripur Co-operative Central Bank appointed Maulvi Anwar Hosain to the post of secretary.

(*ii*) Yes.

(*iii*) No.

(*b*) Maulvi Anwar Hosain resigned the post, saying that he had accepted it under the misapprehension that it was a post with better prospects than that of auditor which had been offered to him

(*c*) No.

(*d*) *Vide* (*b*).

(*e*) The Registrar advised Maulvi Anwar Hosain to resign. He did not approve of the appointment.

(*f*) Maulvi Anwar Hosain has been appointed an auditor of Co operative Societies. The pay of an auditor is Rs 75 and the pay of the secretary of the Madaripur Central Bank was Rs. 75--5--100"

Appointment of another Muhammadan gentleman on the resignation of Anwar Hosain as Secretary to Madaripur Co-operative Central Bank.

(*a*) Is it a fact that on the resignation of Anwar Hosain the Directors of the Madaripur Central Bank appointed a Muhammadan gentleman as paid secretary?

(*b*) Is it a fact that the said Muhammadan gentleman had been working for years as Honorary Secretary, and that he had been the pioneer of the movement in the subdivision?

(*c*) Is it a fact that the Subdivisional Officer disapproved of this appointment? If so, why?

(*d*) Is it a fact that the Subdivisional Officer warned this gentleman against offering himself as a candidate for appointment? If so, for what reasons?

(*e*) (*i*) Is it a fact that the Subdivisional Officer asked the Registrar, Co-operative Societies, to cancel the appointment?

(*ii*) If so, has the Registrar any authority under the by-laws of the Madaripur Central Bank to do so?

Questions and Answers.

(*f*) (*i*) Is it a fact that the Registrar went to Madaripur at the instance of the Subdivisional Officer and caused the Directors to cancel the appointment?

(*ii*) If so, on what authority did the Registrar do so?

Answer by the Hon'ble MR. MCALPIN :—

(*a*) Yes.

(*b*) He had worked for some time as honorary secretary of the Madaripur Central Bank and was one of the pioneers of the movement in the subdivision.

(*c*) The Subdivisional Officer disapproved of his appointment. He considered him unsuitable for the post of a paid secretary whose work would be more onerous than that of an honorary secretary.

(*d*) The Subdivisional Officer warned him to withdraw his candidature for the reason given in reply to (*c*).

(*e*) (*i*) The Subdivisional Officer asked the Registrar to veto the appointment.

(*ii*) The Registrar has no authority under the by-laws of the Madaripur Central Bank to cancel the appointment of the secretary, but under a circular of the department issued in 1914 all Central Banks were instructed to make all appointments to paid posts in consultation with the Registrar.

(*f*) (*i*) The Registrar went to Madaripur not at the instance of the Subdivisional Officer, but in the ordinary course of his duty. That was at the end of February, 1918. As a result of bad realisations from societies during the previous harvest, the state of the finances of the Central Bank made it impossible for it to entertain a paid secretary. The Registrar pointed this out to the Directors, who accepted his advice and postponed the entertainment of a paid secretary.

(*ii*) By virtue of his position as Registrar he advised the Central Bank."

(*b*) Did the Registrar make the above remark as an expression of his own personal opinion or did he do so under the orders of Government?

Answer by the Hon'ble MR. MCALPIN :—

"(*a*) No.

(*b*) The question does not arise in view of the answer to (*a*) above."

22.

(*a*) Will the Government be pleased to state whether the Registrar, Co-operative Societies, can, under the by-laws, interfere with the action of the Directors of the Madaripur Central Bank in regard to the appointment of their own officers and servants? Interference by the Registrar, Co-operative Societies, with the Madaripur Central Bank in regard to appointments.

(*b*) If so, to what extent?

Answer by the Hon'ble MR. MCALPIN :—

"(*a*) No such enabling by-law exists, but the omission does not affect the general advisory power of the Registrar.

(*b*) The question does not arise in view of the answer to (*a*) above

Questions and Answers.

Answer by the Hon'ble MR. MCALPIN :—

"(*a*) The Subdivisional Officer, Madaripur, appointed some supervisors in the Central Bank with effect from the 1st of April, 1918, without reference to the Directors.

(*b*) His authority for so doing was the following resolution passed by the Directors of the Madaripur Central Bank on the 23rd March, 1918 :— 'The Directors delegate all their powers relating to the appointment and dismissal and all other matters regarding supervisors and clerks unconditionally to the Chairman for a period of one year and until revoked afterwards.' Alleged remarks by Registrar, Co-operative Societies, on the appointment of a Muhammadan as Secretary, Madaripur Central Bank.

(*a*) Is it a fact that in his last inspection note on the Madaripur Central Bank the Registrar, Co-operative Societies, remarked that the Directors appointed a Muhammadan, as paid secretary, on account of his religion ?

(*b*) (*i*) If so, will the Government be pleased to state whether the Registrar had any materials before him to justify this remark ?

(*ii*) If so, what were the materials ?

Answer by the Hon'ble MR. MCALPIN :-

"(*a*) The remark was as follows : 'Although the candidate is a very deserving man, he was obviously not the best candidate and he was obviously elected because of his religion'

(*b*) (*i*) Yes.

(*ii*) The materials were the strained relations between the Directors in this connection, the request made to the Registrar by several people in Madaripur to use his influence to have a Muhammadan appointed and the following resolution which was passed by the Anjuman-i-Mafidul Islam on the 18th February, 1918 :—'Resolved that the Registrar be requested to accord his sanction to the appointment of a Muhammadan paid secretary for the Madaripur Central Bank.' (*e*) What principles, if any, were followed by those district boards which made such selection of text-books for the current year ?

Questions and Answers.

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) The reply is in the negative

Selection of text books by the district board of Chittagong

(*a*) Have the Government any information as to the method followed by the district board of Chittagong in the selection of text-books this year?

(*b*) Is it a fact that a list of text-books which was prepared by the Chittagong district board was cancelled by the Divisional Commissioner?

(*c*) If so, will the Government be pleased to state the circumstances of this case and to lay on the table the papers bearing on this subject?

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) The District Board selected the text-books recommended by the education committee from the books approved by the central text-books committee and published by the Director of Public Instruction. Subsequently several applications were received, including one forwarded by the Commissioner. These were duly considered and a few more books were selected by the education committee and approved by the board

(*b*) The answer is in the negative.

(*c*) The question does not arise."

Will the Government be pleased to state whether they are contemplating the establishment of schools, or the opening of special classes in connection with the existing institutions, for imparting medical education in the vernacular.

LIST OF BUSINESS—ITEMS Nos. 3 and 4.

THE AMENDED DRAFT FINANCIAL STATEMENT.*

The Hon'ble Sir Henry Wheeler presented the amended draft Financial Statement for Bengal for 1919-20 :—

* This statement was identical with the Revised Financial Statement as presented to the Council on the 13th March 1919, except for one or two alterations which will be found in the Memorandum accompanying that statement

Amended Draft Financial Statement.

Sir Henry Wheeler.

He said :—" My Lord, I have the honour to present the Amended Draft Financial Statement for the year 1919-1920.

Hon'ble Members are already in possession of the papers, together with a copy of the Civil Budget Estimates, and my remarks may, therefore, be brief. It will be noticed that the Statement has been prepared in a somewhat different form from that followed in previous years. On the occasion of the last budget I mentioned that the form then in use seemed susceptible of improvement, and, after examination of the Financial Statements as presented in other provinces, we prepared our Statement for the approaching year in the form in which it now appears. The changes are designed to make for clearness, so as to enable Hon'ble Members to grasp easily the salient features of the accounts. The memorandum by myself which appears at the beginning of the Statement mentions briefly the most noticeable points in connection with the opening balance and revised estimates of the current year and the budget estimates of the ensuing year. It endeavours to set forth the major variations in tabulated statements of fairly simple form, and in the text it makes mention of individual features of importance. Then follows in Part II a more detailed note by Mr. Donald which, taking each major head in turn, gives further particulars regarding revenue and expenditure, each paragraph being intended to give a bird's-eye view of the position as regards each main section of the accounts. If Hon'ble Members find it easier to follow the figures and to appreciate their meaning the object of our alterations will have been achieved.

I do not propose to anticipate the remarks which will be made by the various members of Government in respect of the figures relating to individual Departments, and I will, therefore, confine myself to the more general aspects of our financial position. We started the current year with a balance which was Rs. 9,88,000 less than our expectation, but according to our revised estimates our receipts for the current year will be appreciably in excess of those for which we budgetted, while our expenditure will be noticeably less, thus leaving us at the close of the current month with a balance which is Rs. 28,70,000 better than the budget. On the receipt side we have gained heavily under the head of Excise, and to a fair extent under those of Stamps, Income Tax, Forests, Ports and Pilotage, and Miscellaneous, while on the expenditure side the most noticeable fluctuations are the large decrease under the head of Education and the large apparent increase under Civil Works in charge of the Public Works Department. The latter is a normal feature of any budget, as sums provided for buildings in the departmental accounts are transferred to the Public Works head in order that the works involved may be actually executed. This fact affects the Education figures among others, but the savings in that respect are also due to the non-utilisation of grants.

In the next year's budget we anticipate still further growth of revenue under Stamps, Excise and Income Tax in particular, in comparison with the revised estimates, while in the matter of expenditure a large increase will be noticed under Education, Sanitation and Public Works. In the net result we propose, with the sanction of the Government of India, to draw on our balances to the extent of Rs. 43,79,000, mainly in order to enable us to undertake urgent public works of importance which have been deferred owing to the financial stringency of recent years. It will be observed that we have made large deductions on account of anticipated savings. These are based on past experience as to the actual spending capacity of different departments.

We expect to close the year with a balance of Rs. 3,22,23,000. Of this the major portion is practically earmarked for the particular purposes

Amended Draft Financial Statement.

Sir Henry Wheeler.

for which certain Imperial grants were given from time to time and to which effect will be given in subsequent years.

It is useless to attempt to forecast the financial future of the province since this will be so largely affected by the financial proposals of the Reform Scheme. At present these have only been outlined in the report of the Secretary of State and His Excellency the Viceroy, and presumably one of the most important tasks which will be before the Finance Department during the ensuing year will be the conversion of that sketch into the definite figures which are to be taken as the basis of the future relations between ourselves and the Government of India. The Government of India have not yet addressed us on the subject, but I imagine that they will do so in the ensuing year, when we shall have to make an examination of the figures in accordance with whatever scheme may be approved. This will not be altogether an easy business in view of the abnormal conditions of the recent years of war, but we shall do our best to see that the financial interests of the province are duly protected, and that our successors are placed in possession of all funds to which they can fairly lay claim.

Hon'ble Members will of course remember that the figures as now furnished are still only provisional and that they will not be final until the budget is finally presented. Should any Hon'ble Member desire further information on individual points the Finance Department will do its best to supply it.

I now beg to introduce the various heads of Expenditure and Revenue which are my particular concern.

The following heads call for no comment beyond the remarks which already appear in the Statement :—

Expenditure—

1. Refunds and drawbacks.

6. Stamps.

Revenue—

XII.—Interest.

XXII.—Receipts in aid of superannuation, etc.

Expenditure—

29. Superannuation allowance.

These are all obvious heads and the figures in the statement give details.

Turning to heads, Revenue V and Expenditure 7—Excise, we come to a source of revenue which is rapidly becoming one of the chief mainstays of our finance. Last year the Hon'ble Mr. Donald said that he did not expect any large increase of revenue in the current year, but events have falsified our anticipations, and the revised estimate has been enhanced by Rs. 15 lakhs, while in the budget we have taken credit for a still further rise of Rs. 9 lakhs, raising the total revenue to the large figure of Rs. 1,84 lakhs. These results are mainly due to the increased consumption of country spirit in Hooghly, Howrah, the 24-Parganas and Calcutta, and to larger issues of Indian made foreign liquor owing to the higher prices ruling for European drinks. Owing to the raising of the duty on opium an increase is also expected under that head. As a set-off against the increased consumption we have materially enhanced the duty and price of country spirit in Hooghly, Howrah, the 24-Parganas and Calcutta with effect from the 1st February. As regards the ensuing year, with a return to more normal conditions, there

Amended Draft Financial Statement.

Sir Henry Wheeler.

is little reason to forecast a diminution in revenue, and in fact, even if consumption goes down, the increased rates of duty and price should ensure a larger revenue. The fixed fee system of settlement has been introduced in the district of Midnapore, accompanied by an increase in duty with effect from the 1st April next, and in consequence larger receipts may be looked for. The trade in Indian made foreign liquors is showing a tendency to expand, and the receipts from duty on Indian made tinctures in bonded laboratories are also likely to increase. The tree tax system on *tari* palms, which has been productive of such favourable results in Madras in particular, has been a success in Hooghly and Howrah, and should result in a larger yield of revenue.

Expenditure on the department shows a tendency to increase, which is not an unnatural consequence of the growth of revenue. The Statement mentions one or two details of interest in this respect.

The next item on my list is—

Expenditure—

10.—Income-Tax,

which both in the revised and in the budget estimate exhibits an increase. This is the inevitable consequence of the introduction of the Super Tax Act VIII of 1917 and the new Income-Tax Act VII of 1918, which have materially added to the work of the department, coincident with the large increase in revenue which has been derived from this head in recent years. Assessment of income-tax is now far more complicated than it used to be, and we have had to add to the establishment noticeably in Calcutta where the bulk of the income-tax is collected.

Turning to Jails—

XVIB—Revenue, and

19B—Expenditure,

the budget both under revenue and expenditure shows a decrease in comparison with the revised of approximately Rs. 3 lakhs. For this result the sub-head 'jail manufactures' is mainly responsible. With the cessation of the war our supplies to the Military Department are bound to diminish with a consequent reduction under the cost of manufacture. During the war the Army Department indented on our jails very largely for various articles which they manufacture. On the other hand it is hoped that, with a return to more normal conditions, the expense of keeping prisoners, which has been greatly enhanced in these days of high prices, will be reduced.

We next come to the head—

Police—

XVII—Revenue.

20.—Expenditure.

The revenue figures call for little remark except in so far as the transfer of the control of hackney carriages in Calcutta from the Corporation to the Police will swell the receipts from fees and fines leviable under the relevant Acts, and it should be noted that the receipts from hackney carriages and motor cars will practically meet the expenditure involved in the maintenance of the administrative department. This is worth remembering, as the Finance Committee remarked that the expenses of the Department seem to be rather high. The reason is that we hope to get a more efficient department under better control. And, of course, it is not a department from which we want to make money If the receipts from hackney carriages and motors

Amended Draft Financial Statement.

Sir Henry Wheeler.

cover the expenses there will not be any very reasonable ground for complaint. On the expenditure side the revised estimate of the current year shows, on the face of it, a decrease of Rs. 7,40,000 as compared with the budget, but the saving is more apparent than real as, of the difference, Rs. 5,75,000 has been transferred to the Public Works Department on account of works in course of completion. The budget estimate for 1919-20 is rather over Rs. 3 lakhs in excess of the revised estimate for the current year, although some Rs. 4 lakhs less than the budget estimate for 1918-19, though here again, as against the apparent saving, it is to be noted that expenditure in connection with the schemes of reorganisation in Eastern Bengal, which was previously met in the departmental budget from the special assignment made by the Government of India in this respect, will in future appear in the Public Works budget, the special assignment having been exhausted. This will now be dealt with as ordinary works under the Public Works head, whereas previously we were working against the special assignment granted by the Government of India to the old Government of Eastern Bengal in pursuance of the reorganization scheme. The important new items in next year's budget are mostly to be found in connection with the Calcutta Police. It has been found necessary to raise the pay of European inspectors and sergeants, as recruits otherwise find superior attractions elsewhere, while the development of street traffic in this city has necessitated a larger expenditure on the staff maintained for its control. A glance at the streets, even, outside Government House, would show the congestion which now exists and the difficulty of handling the traffic. The item of Rs. 40,000 on account of the public vehicles department is counterbalanced, as I have already mentioned, by corresponding receipts, while the provision for a new launch is not in reality a fresh outlay, but in substitution for a launch commandeered by the military authorities for which we shall in due course receive compensation. Since the war the Army Department took away from us a good many launches. They were paid for, so we did not lose over the transaction, but of course new launches have to be found in their place. In respect of the district executive force the large entries in the matter of the reserve of head-constables and constables, and the improvement of the pay of the head-constables are really in continuation of similar provision during the current year; in other words, they are no novel departures, but the addition of a new company to the Dacca Military Police accounts for an appreciable increase under the sub-head 'Special Police.' The duties of the Military Police are scattered over a large area of the province and the existing force is inadequate; hence this increase.

The figures of the Medical Department—Revenue XXA and Expenditure 24A—would at first glance give the appearance of steady jogging along on customary lines. But in reality we look forward during the ensuing year to the initiation of various important schemes for which provision is made in the Public Works budget. In particular I would instance the following :—

	Rs.	
The Hygiene Institute attached to the Tropical Medical School	1,00,000	(It has previously been mentioned that towards this scheme we have been promised a grant from the Research Committee).
New medical school at Burdwan	1,00,000	

Amended Draft Financial Statement.

Sir Henry Wheeler; Maharajadhiraja Bahadur of Burdwan.

	Rs.	
New nurses' quarters at the Medical College, Calcutta	6,30,000	(A large portion of this is for the purchase of land).
New Eye Hospital at the Medical College, Calcutta	2,00,000	(This is the beginning of the rather heavy expenditure which the whole scheme will involve).

Each of these items holds out good prospects of useful development, and it is a ground for satisfaction that we can at last see our way to making a commencement with them. It must be within the recollection of Hon'ble Members that this new Eye Hospital and the Hygiene Institute have been frequently mentioned in this Council in recent years. But it is only now that we have been able to make a beginning with them and I hope that good results will follow. The Hygiene Institute is a new departure, and is really the completion of the general scheme connected with the Tropical School. The new medical school at Burdwan will afford increased facilities for medical education which we have been pressed so often to provide; the new nurses' quarters at the Medical College, though unfortunately expensive, are a necessary preliminary to the further development of that great institution, while the new Eye Hospital is a long-pending want which I am only too glad to be able now to begin to meet. In all these respects we are making distinct advances under the head 'Medical,' and while many other demands await our attention, and can on their merits be pressed—there are many excellent and laudable pending schemes if money could be found for them—I think it will be admitted that, compatibly with other demands upon us, we have endeavoured to recognise the importance of this branch of the administration.

As regards Stationery and Printing—Revenue—XXIII and Expenditure 30—the most annoying feature is the rise in the price of paper, etc., which involves us in additional outlay. The construction of the new Secretariat Press has rather hung fire. We hope to make a beginning on the site already acquired and to push on with the work next year.

The head 'Miscellaneous' Revenue XXV and Expenditure 32—presents no very novel features. The revised estimate of receipts of the current year is abnormal owing to the inclusion of the sale-proceeds—I think it was 3 lakhs—of the Amherst Street Police Hospital, though as against this we have the cost of the new building which will shortly be under construction. Under expenditure we save Rs. 1,50,000 by the dissolution of the Publicity Board, though the unfavourable agricultural conditions are reflected in the provision of Rs. 75,000 for gratuitous relief."

LIST OF BUSINESS—ITEM No. 5.

The Hon'ble Sir Bijay Chand Mahtab, Maharajadhiraja Bahadur of Burdwan, introduced the following heads :—

19A.—Courts of Law.
24B.—Sanitation.

Revenue—

XXXI.—Civil works in charge of Civil officers.

Amended Draft Financial Statement.

Maharajadhiraja Bahadur of Burdwan.

Expenditure—

45.—Civil Works in charge of Civil officers.

He said :—"My Lord, I rise to introduce the figures relating to Courts of Law. The total budget estimate for 1918-19 was Rs. 1,01,75,000, but the revised estimate was raised to Rs. 1,04,20,000. The increase is chiefly due to larger payment of fees to Counsel and pleaders in connection with both civil suits and criminal cases

The total expenditure for 1919-20 has been estimated at Rs. 1,04,35,000. This includes an enhanced provision of Rs. 1,35,000, under the head 'Process-serving establishment', to meet the cost of the war bonus recently sanctioned for menials, and a lump provision of Rs. 1,25,000 for the improvement of the pay of the officers of the Provincial Judicial Service, besides a provision of Rs. 14,724 for the appointment of a Seventh Judge in the Calcutta Small Cause Court and his establishment ; it also includes Rs. 24,000 for additional establishment for the reorganization of the record-room of the High Court, Appellate Side.

As the Jury system has been extended this year to 12 more districts, a provision of Rs. 60,000 has been made for payment of allowances to Jurors, as against Rs. 41,645 in the budget for 1918-19. Provision for six temporary Subordinate Judges and six temporary Munsifs with their establishments have been made in the budget for 1919-20, as the existing provision for Subordinate Judges and Munsifs with their establishments proved inadequate for administrative requirements, and money had to be reappropriated from other heads during the year. Provision has also been made for the Additional Legal Remembrancer and his establishment as the term of his appointment has been provisionally extended.

A provision of Rs. 1,74,500 has been made for Judicial major works which will provide for Additional Sessions and Munsif's Courts at Bogra, a civil court at Burdwan and residences for the Additional Sessions Judge and four Munsifs at Bogra, four Munsifs at Satkhira and three at Bagerhat in the Khulna district, and Rs. 50,000 for minor works has been made in the Provincial Civil Works Budget for the year 1919-20.

I beg now to introduce for the consideration of the Council the figures relating to Sanitation.

The expenditure for the current year was originally estimated at Rs. 11,71,000 and has now been reduced to Rs. 9,04,000. A large portion of the decrease is more apparent than real, for a sum of Rs. 1,90,000 has been transferred to the Irrigation Department in order to enable it to execute anti-malarial schemes that appear in the Sanitary Department programme, but for carrying out which the agency of the Public Works Department has to be utilized. As regards the budget for next year the figures alone will show how anxious we are to embark on a forward policy in the campaign against disease. The total provision is Rs. 18,66,000, or more than double the amount provided for in the revised estimate for the current year. The sanitary schemes shown on page 83 of the draft Financial Statement alone involve a total cost of Rs. 13,70,000, a figure which exceeds the Imperial assignment for sanitary work by over 4 lakhs. Of this amount a little over a lakh and a quarter is for various recurring charges, the most noticeable item being the very largely enhanced provision for quinine grants, which stands at half a lakh. Altogether 7½ lakhs have been provided for sanitary engineering works, mainly drainage and water-supply, and it will be seen that Rs. 3 lakhs has been provided for beginning the Dacca Sewerage scheme, a most important and long pending project towards the execution of which Government has promised a

Amended Draft Financial Statement.

Maharajadhiraja Bahadur of Burdwan; Mr. Cumming.

grant of Rs. 25 lakhs but which it has not hitherto been possible to take in hand. Then we have approximately 5 lakhs specially allotted for anti-malarial works carried out either entirely or partially at the cost of Government. Considerable sums are allotted for works that appeared in this year's programme and three new schemes are now provided for, viz., the Amta and Bhairab Drainage schemes, both large and important projects, which will be taken up by the District Boards under the Bengal Sanitary Drainage Act, and the Ghaghat scheme which will benefit Rangpur. A beginning is to be made with a publicity bureau for the education of the general public in matters of public health—details will be found on page 76 of the Financial Statement. Special provision has been made for research work, Rs. 36,000 being set apart for an investigation into river pollution and a survey of kala-azar, while Rs. 75,000 is set aside for the campaign against hook-worm disease, which, as Hon'ble Members may remember, formed the subject of an address recently delivered by His Excellency at a meeting held at Government House."

I beg also to introduce the figures relating to Civil Works in charge of Civil Officers.

The budget estimate of receipts for the current year was Rs. 1,58,000, but in the revised estimate this has been reduced to Rs. 1,10,000 mainly with reference to actuals for the first nine months of the year. The budget estimate for 1919-20 is Rs. 1,69,000.

As regards expenditure, the decrease of Rs. 66,000 in the revised estimate is the result of a new provision of Rs. 40,000 for grants to District Boards by Commissioners of Divisions set off against a decrease of Rs. 1,07,000 under grants to Municipalities by those officers. As explained last year, the latter reduction is due to the fact that the grants made by the Divisional Commissioner for educational and medical purposes are debited to those heads instead of to the head Civil Works by reappropriation to this head.

The estimate for 1919-20 is Rs. 15,64,000 of which details for Rs. 14,31,114 are given in paragraph 49 of the Financial Statement."

He said :—My lord, I have the honour to introduce the main heads under 'Land Revenue' and its connected subjects. The Financial Statement has been prepared in such detail that few remarks are required from me.

As regards receipts under the head 'Land Revenue' it will be observed that the estimate has been prepared on the assumption, and with the fervent hope, that the year 1919 will be a normal agricultural year. On the expenditure side the budget estimate is three lakhs in excess of the revised estimate for the current year. Provision has been made for a further increase in the number of Circle officers, regarding the appointment of which reference was made last year. The expenditure under 'General Administration' represents a normal expansion.

In the case of the Forest Department the increase of revenue which was due primarily to the demand for railway sleepers for military purposes seems likely to continue for civil requirements. The proposed expenditure represents a normal increase. The administration of the Forest Department in the existing Presidency of Bengal since 1902 furnishes a net profit which has varied from a little over five lakhs to a little under ten lakhs.

Turning now to the Registration Department we find that the income during the last two years has been somewhat checked. On the expenditure side it is proposed to make provision for an improvement in the prospects of the clerks in the rural offices and also for a portion of the reorganisation of the gazetted staff, which was sanctioned by the Secretary of State.

The general head 'Agriculture' covers the subsidiary heads of the Veterinary Department, the Co-operative Credit Department and the Agricultural Department proper. Under the two latter heads considerable advance is being made in accordance with a policy of steady expansion. In the case of the Agricultural Department the extension consists in the increase of District Agricultural farms, District Agricultural officers and seed stores, and in the extension of the distribution of selected seed, while under the head of

Amended Draft Financial Statement.

Mr. Cumming; Mr. Cowley.

Co-operative Credit a similar advance has been made in the obligations which the State has undertaken for the purposes of propaganda and control.

Under the head 'Scientific and Miscellaneous Departments' it will be noticed that provision has been made for the extension of Cinchona Plantations in the Darjeeling Hills.

I also beg to introduce the subject 'Ports and Pilotage' under the Marine Department. In addition to the information given in the Statement I need only add that an important matter which is receiving the consideration of Government is the financing of the improvement works for the Port of Chittagong, including the purchase of dredging plant, as recommended by Sir George Buchanan in the report which he submitted under the direction of the Government of India. During the present year a grant of one lakh in addition to a recurring grant of one and-a-half lakh has been sanctioned and the Government of India have agreed to contribute four lakhs next year. A financial programme on the basis of grants and loans is being prepared in consultation with the Port Commissioners of Chittagong for executing a complete works programme within a definite number of years."

He said :— "My Lord, I have the honour to introduce for the consideration of Council the Public Works heads of the Budget entitled 'Irrigation—Major Works, XXIX—Receipts and 42—Expenditure and Minor Works and Navigation, XXX—Receipts and 43—Expenditure.'

The Major Works with which we have to deal in this Presidency are the Midnapur and Hijli Tidal Canals. In regard to these, I have nothing to add to the statements which have been made under this head in paragraphs 44 and 45 of the amended draft Financial Statement. In regard to the head 'Minor

Works and Navigation', which is more important in its effect upon the Provincial Revenues, the chief sources of revenue are the tolls received from navigation on the Calcutta Canals, the Sunderbans route and the Madaripur Bil Canal which together form the navigable route for boats and inland steamers between Calcutta and Eastern Bengal. By the construction of a regulating bund to the south and east of the Madaripur Bil Canal, the financial prospects of the Canal which at one time was maintained at a loss to Government, have been improved; so that the project is likely to prove remunerative and to fulfil all the conditions of a Productive Public Work. The recent improvements by dredging in the Lower Kumar river have also been successful; the whole route is now an efficient navigable channel. In this respect, I have nothing to add to the statement made in paragraph 46 of the amended draft Financial Statement.

In regard to the estimates of expenditure under this head I have to refer to the statement made in paragraph 47 of the draft Financial Statement. I may state that the increased provision under 'Capital Expenditure, Madaripur Bil Canal' has been made in the Budget of 1919-20 to enable this Government to start with the scheme for widening of the Madaripur Bil Canal, which has become a matter of urgent necessity owing to the heavy increase in the steamer and barge traffic through the Canal, which is the main artery between Eastern Bengal and Calcutta.

The efforts of Government are largely expended in the conservation and improvement of waterways *i.e.*, navigable waterways. Inextricably bound up with this question is that of the drainage of the hinterland immediately beyond the reach of the tidal influence and in the upper reaches where tidal influence is felt. We are collecting data to enable us to deal effectually with the whole problem of river improvement.

An example of a project of this nature and one on which we have now been working for some years is the improvement of the Bidyadhari river, and for this a sum of Rs. 2,10,000 has been provided for expenditure during 1919-20.

By extending the tidal spill of the river and training the river by means of groins to obtain a narrow and deep channel, we have succeeded in improving the condition of the river both from the drainage and navigation points of view.

We are also continuing the measures already started for mitigating the effects of the Damodar floods; the exit channels of these floods have been and are being improved, and a scheme for construction of controlling reservoirs has been partly worked up. In this connection I may add that the services of the special officer placed at the disposal of this Government for a period of 18 months have been extended for another year, so that he may be in a position to complete the whole project.

A provision of Rs. 3,16,000 has been made for these remedial measures in the budget estimate for 1919-20, and in connection with the Damodar Reservoir Scheme a sum of Rs. 20,000 has been provided for the further investigation of sites for reservoirs in the Damodar Catchment; the investigations carried out during the year 1918-19 have proved the necessity for the construction of a second reservoir in the valley of the river Damodar apart from and in addition to that proposed on the river Barakar. A sum of Rs. 2,50,000 has been provided in the Irrigation Budget for two large drainage projects, namely, the Amirabad and Pachaboni project in the Contai Subdivision and the Bulli Bil project in the 24-Parganas. The former is the first contribution towards the major Hijli Drainage Scheme.

Amended Draft Financial Statement.

Mr. Cowlay; Mr. Kerr.

In regard to measures of *anti-malarial drainage* we have devoted special attention and care to working up projects and the following measures have been started :—

The Arool Bil Project,
The Jaboona Project,
The Nawi Sunti Project,
The Saraswati improvement project,
Baragachia Project,
Monikhally Project,

and the Banka project has been completed : these are all in the Presidency and Burdwan Divisions. Surveys are continuing and new projects being developed.

I have also to introduce for the consideration of the Council the Budget for *Civil Works in charge of the Public Works Department.*

On the receipt side I have nothing to add to the remarks in the amended draft Financial Statement.

The increase of Rs. 40,000 under Establishment in the ensuing year's Budget is necessary chiefly on account of the reversion of several officers from Military duty. After providing for Establishment and Repairs and for the completion of works which will be in progress on the 1st April, there is a sum of over twenty-five lakhs left for new major works the distribution of which is shown on page 52 of the Statement and five lakhs for new minor works distributed amongst all Departments."

The Hon'ble Mr. Kerr said :—

"My Lord, the provision for district partition schemes appears in the Public Works Department budget, but it may be useful if I give a few words of explanation on behalf of the Political Department regarding the present position of the schemes. Last year, as I told the Council, the position in regard to Midnapore was that the Secretary of State had accepted the general principle of the scheme and authorised preliminary work in the way of brick-burning. In August last, he accorded formal sanction to the scheme and we are now in a position to proceed with building operations, subject to such technical or professional sanction as may be necessary to the individual building estimates under the rules of the Public Works Department Code. Work has been greatly hampered by the shortage of building materials and also by the shortage of staff in the Public Works Department owing to the deputation of officers to military duty. We hope that these difficulties will decrease to some extent during the coming year and that we shall be able to complete some of the more important buildings.

In the case of Mymensingh, the complete scheme was submitted to the Government of India last August. The Secretary of State has sanctioned the acquisition of land, which is now in progress and will we hope be completed before the end of this month. The Secretary of State's sanction to the scheme as a whole is still awaited, but we have every reason to hope that it will soon be received and that we shall be able to make a start on the buildings next cold weather.

While we hope to make substantial progress with both the schemes next year, there are the difficulties regarding shortage of staff and material and there is also the fact that formal sanction to the Mymensingh scheme has not yet been received. We have, therefore, thought it right to budget with caution, and the total amount provided for partition schemes in the budget for 1919-20 is only 7 lakhs."

XIX.—Education.

Expenditure—

22. Education.

He said :—

"My Lord, I have the honour to introduce for the consideration of the Council the heads of Revenue and Expenditure of the Education Department.

Revenue.—On the receipts side of the budget there is nothing deserving of remark except that receipts are steadily increasing. From Rs. 8,86,574 in 1915-16, they have risen to an estimate of Rs. 10,29,000 for the next financial year. The increase is due to larger collections on account of fees from Government Colleges and Schools, General.

Expenditure.—Till 1914-15, the Education budget shewed uninterrupted growth and progress. But the abnormal conditions induced by the War checked progress and it took some time to recover lost ground. It is however satisfactory to note that expenditure on education has now not only attained its former figure but is rising beyond it. The figures on page 30 of the Financial Statement explain the situation.

The sanctioned budget for the current financial year stood at Rs. 1,03,01,000. From what has been spent during the first nine months of the year, it is anticipated that the expenditure during the year will fall short of the sanctioned estimate. The deficit in the expenditure is due to—

(1) non-utilisation in full of the Imperial grants, as certain of the proposed schemes have been sanctioned only in part,

(2) transfer of money to the Public Works Department for educational works,

(3) deputation to military duty of several officers of the Department, with consequent saving of salaries and house allowances,

(4) stoppage of the payment of exchange compensation allowance,

(5) impossibility of recruiting officers for the Indian Educational Service, and

(6) decrease in contingent expenditure on account of the economy enforced by war conditions.

The budget for the year in prospect has been placed at Rs. 97,86,000, a figure below the sanctioned estimate for the current financial year, but in advance of the revised estimate by Rs. 12,86,000. The final budget figure has been kept down by allowing large deductions for probable savings and rounding. In reality, the budget provides for a much larger expenditure than the final figure would seem to warrant, insomuch as deductions have been made from totals, but not from detailed heads.

Many new items are included in the programme of educational expenditure for next year. These are fully explained in the Financial Statement on pages 70-72.

Amended Draft Financial Statement.

Mr. Wordsworth.

Besides the expenditure proposed under the main head, an amount of Rs. 1,95,000 will be spent by the Public Works Department on original building works of the Department. Details of these works will be found on page 52 of the Financial Statement.

"The education portion of the Civil estimates presented along with the Financial Statement is novel in some respects. A word of explanation may be useful in reference to the arrangement and grouping of heads observed in the present estimates. Certain detailed and sub-heads, unauthorised by the Government of India, had crept into the budget and the accounts of the Department. These unnecessary heads have now been removed or combined with other heads, the existing sub-heads being in certain cases suitably re-named. For example, the head 'Arts Colleges' includes 'Arts Colleges for Boys' and 'Arts College for Girls,' the head 'Secondary Schools, English' includes 'High Schools for Boys,' 'High Schools for Girls,' 'Middle English Schools for Boys' and 'Middle English Schools for Girl".

ADJOURNMENT.

The Council was then adjourned to Thursday, the 13th March, 1919, at 11 A.M. at Government House, Calcutta.

together with International Code number and there stop until communicated with by the Harbour Patrol Vessel which will be in that vicinity. In the event of the absence of the Patrol Vessel from this locality, the vessel will proceed at a speed not exceeding five knots toward a line joining Guardia shoal and La Monja island, and there await instructions from Cochinos point Signal Station ; this line shall not be passed until permission to do so has been granted.

5. In the event of a vessel being ordered by the Patrol Vessel or Cochinos Signal Station to proceed into Mariveles harbour, she shall under no circumstances cross to the eastward of a line joining Gorda point and La Monja island.

6. When a vessel has been granted permission to proceed through the North channel she will be given a code signal which shall be hoisted immediately and kept flying while within the restricted area above described. Under no circumstance shall she, on entering, pass a line joining Gorda point and La Monja island without displaying this signal.

The signal granting permission to enter will be a rocket followed by two green stars, and this signal shall be repeated by a rocket fired from Corregidor. The vessel will then be entitled to proceed to an anchorage in Mariveles bay.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR FEBRUARY 1919.

I. **Character of the season.**—The rainfall during the month was generally light throughout the province. The fall was below the normal everywhere excepting Khulna and Darjeeling, where it was a little excessive. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Threshing of winter paddy and sowings of *rabi* crops were over. Pressing of sugarcane, harvesting of potatoes, mustard and other spring crops continued. Preparation of lands for the next autumn crops was in progress; and sowings of jute and autumn paddy commenced in places in the Eastern Bengal districts.

III. **State of standing crops.**—Light showers during the first part of the month slightly improved the condition of standing crops, but more rain was needed.

IV. **Prospects and probable outturn.**—The prospects of standing spring crops, though benefited a little by the recent rain, were reported to be generally unfavourable.

V. **Damage to standing crops.**—Except for a slight damage to tobacco and other vegetable crops in the Arambagh subdivision of Hooghly by the flood of the Damodar during the first part of the month, no report of damage to the standing crops was received from any district.

VI. **Condition of agricultural stock.**—The condition of live-stock was generally fair, but cattle-disease was reported from places in the 24-Parganas, Murshidabad, Burdwan, Birbhum, Midnapore, Hooghly, Dinajpur, Darjeeling, Malda, Dacca and Faridpur.

VII. **Failure of pasturage and fodder.**—The supply of fodder was reported to be insufficient in Midnapore, Dinajpur, Bogra, Malda and in the Brahmanbaria subdivision of Tippera. In Bankura and Noakhali the supplies were reported to be sufficient but the prices had a tendency to rise.

VIII. **Prices of food-grains.**—During the second fortnight of the month under review the price of common rice rose in eleven districts, fell in six and remained stationary in the rest. It varied from 6½ seers in the districts of 24-Parganas, Birbhum, Howrah and Darjeeling to 9 seers at Chittagong per rupee.

IX. **Condition of agricultural people.**—The condition of agricultural population continued to be fair, but distress prevailed in Bankura and in the Brahmanbaria subdivision of Tippera, where agricultural loans and gratuitous relief were distributed. Test works were also opened in those places.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

No. 2125-C., dated Delhi, the 21st March 1919.

RESOLUTION—By the Government of India, Home Department (Police).

Resolution *re* the Administration of the Indian Arms Act.

FOR many years past the administration of the Indian Arms Act has been the subject of adverse criticism, mainly because European and East Indian subjects of His Majesty are exempted from the obligation to take out licenses for the possession of firearms, while Indians, outside certain privileged classes, have to apply for licenses, and even if successful in their applications, can in most cases obtain them only after enquiries as to their status and character. The Government of India have for some time past been anxious to remove this racial discrimination and to minimise the delays and inconvenience which necessarily attend the present system of administering the law, and they have had prolonged correspondence with local Governments on the details of this intricate and difficult subject.

2. Some critics of the existing system demand the repeal of the Act, or in the alternative its administration on a purely fiscal basis, whereby any one desiring a license could secure it without question, on payment of the prescribed fee. The Government of India doubt whether the serious objections to so simple a solution of the problem have been fully realised by those who advocate it. In their responsibility for the maintenance of order and tranquillity the Government of India are bound to take into account the effect which an unrestricted dissemination of firearms throughout the country-side might have upon serious crime. They cannot overlook the likelihood of such weapons being freely used in the dacoities, faction fights, and agrarian and religious riots which figure so frequently in the records of our criminal courts. In more than one province firearms illicitly obtained have during recent years played an appreciable part in serious crime, and the Government of India cannot contemplate with equanimity the similar use of such weapons in other provinces. They apprehend that if there were no restrictions on the possession of firearms by lawless characters, such an increase in crimes of violence might ensue as would endanger the security of the country, and that it would be necessary largely to increase the number of armed police and to improve their equipment.

3. The Government of India have decided, therefore, that the question cannot be dealt with on these lines. They have considered the possibility of abolishing all exemptions and requiring every one from the highest authorities downwards to take out a license for the possession of firearms. Enquiries showed the objections to this course. There is every reason to believe that a general cancellation of exemptions would be regarded as withdrawing a valued privilege, if not as a mark of mistrust.

4. After repeated examination of the question the Government of India decided that the best chance of solving the problem lay first in rigidly restricting the number of exempted persons and secondly in arranging that persons of recognised status and character should, without distinction of race, ordinarily be entitled to obtain licenses for the possession of firearms without enquiry or delay. While details were still under discussion the following resolution was moved in the Imperial Legislative Council and accepted by Government on the 19th September 1918:—

"This Council recommends to the Governor General in Council that a Committee of official and non-official members of this Council be appointed to consider and report to the Governor General in Council to what extent the Indian Arms Act and the rules thereunder can be amended".

The whole question was then laid before a Committee composed partly of official and partly of non-official members of the Council, and the Government of India are now in a position to formulate the conclusions reached after examination of the report of this Committee These are as follows:—

(1) All arms other than firearms and also firearms of an obsolete character possessing a purely antiquarian value will be exempted from all the prohibitions and directions contained in the Arms Act, except in Burma, the Punjab and the North-West Frontier Province, provided that any local Government may retain the existing restrictions for particular weapons or in particular areas where such a course is necessary in the interests of law and order.

(2) All distinctions of a racial character will be abolished, but a restricted schedule of exempted persons as appended hereto will still be retained, the privilege being subject to the same restrictions in respect of the number and description of weapons as at present.

(3) Exempted persons will not be required to register their weapons, but power will be reserved to the Government of India and the local Governments and Administrations to require the registration of rifles, revolvers and pistols in the possession of such persons when necessary.

(4) The great land-holders included in entry (6) of the schedule appended, who at present enjoy exemption in respect of weapons in the possession of their retainers, will in future be allowed exemption in respect of a fixed number of retainers whose weapons will be registered annually as retainers' weapons, their number and description only being specified.

(5) To persons of approved character and status licenses for the possession of rifles (other than those of prohibited bores) and smooth bores will ordinarily be issued on application and without previous enquiry. It will be for local Governments to prescribe for each province the qualifications entitling any person to this privilege, but subject to any such orders the Government of India consider that the following qualifications should be sufficient :—

(*i*) Membership of any order established by the Crown, or the possession of a title conferred or recognised by the Government of India or of the Kaiser-i-Hind Medal or a certificate of honour.

(*ii*) Membership, past or present, of the Indian or a Provincial Legislative Council or inclusion in the list of Provincial Darbaris.

(*iii*) Payment of not less than Rs. 1,000 per annum land revenue or Rs. 250 in road and public works cesses.

(*iv*) Payment of income-tax on an income of not less than Rs. 5,000 for a period of three years.

(*v*) Being a Government officer in receipt of not less than Rs. 250 per month.

(*vi*) Being a commissioned or gazetted officer of His Majesty's Military or Naval Forces or His Majesty's Indian Marine Service or a commissioned Indian officer of the Imperial Service Troops in active service.

(*vii*) Being a pensioned officer who before retirement was by virtue of his official position included in any of the classes described in (*v*) or (*vi*) above.

(6) Persons who have hitherto enjoyed exemption but are not included in the new schedule of persons exempted will be required to take out licenses, but it will be open to the local Government to treat them as entitled to the privilege described in clause (5) above, provided that there is no race discrimination.

(7) The following changes will be made in the rules regulating the issue of licenses :—

(*i*) Licenses for revolvers and pistols will be issued only in cases of real necessity and to persons of approved character, the fee being fixed at an enhanced rate of Rs. 10 except in the North-West Frontier Province where no change will be made.

(*ii*) For a license in Form XVI the fee will be raised to Rs. 5 for each breech-loading weapon but will remain unchanged for muzzle-loaders.

(*iii*) Licenses will be granted, if so desired, for an extended period of three years on a compounded fee subject to the existing conditions regarding the report of loss and transfer of the weapon, and subject further to the proviso that the local authorities shall have the right to enquire whether the weapon for which a license has been granted is still in the possession of the licensee-holder.

(*iv*) Special instructions will be issued to afford facilities to agriculturists to obtain licenses for the protection of crops or cattle and to secure that they are not withheld without good cause.

(*v*) Licenses, other than those for the protection of crops or cattle, when issued at the license holder's place of permanent residence, will be valid throughout British India, except Burma, Assam and the North-West Frontier Province, subject to any restrictions that may be necessary in regard to any particular province.

(*vi*) Licenses will not only be issued by District Magistrates but also by such Subdivisional Officers as the local Government may specially empower in this behalf. For the purposes of enquiry preliminary to the issue of a license, other agencies will, where possible, be employed in addition to or in substitution for the police.

The necessary modification of the rules and schedules in order to give effect to these decisions is now being undertaken, but in order to give persons, who are exempted at present but will not be exempted in future, time to adjust themselves to the new conditions, the changes in the list of exempted persons and the enhancement of fees will not take effect until 1st January 1920.

ORDER.—Ordered that a copy be forwarded to all the local Governments and Administrations and to all Departments of the Government of India.

ORDERED further that the Resolution be published in the Supplement to the *Gazette of India*.

Secretary to the Govt. of India.

1. PHILIPPINE ISLANDS.—MANILA BAY.

1. The south channel of the entrance to Manila bay is closed to all traffic, both incoming and outgoing, at all times, day or night, and under no circumstances shall it be used. The seaward limits of the entrance to this channel extend from La Monja island on the north to Limbones island on the south; and the inner limits from Corregidor island to San Nicolas shoal light.

2. The North channel is closed to traffic inward from sunset to sunrise, except to certain vessels engaged in public service. The seaward entrance to this channel is designated as being between Guardia shoal on the north and La Monja island on the south. Vessels will be permitted to leave Manila bay by the North channel without restriction as to time. The speed of all vessels passing through the North channel in the area enclosed by a line joining Guardia shoal and La Monja island, and one joining Lokanin (Limay) point and San Nicolas shoal light shall not exceed five knots.

3. The headquarters of the Naval Patrol is based in Mariveles harbour. A Naval Signal Station has been established on the highest elevation of Cochinos point at the western entrance to Mariveles harbour, as an adjunct to the Patrol Vessel

4. A vessel desiring to enter Manila bay shall proceed to the vicinity of a position having La Monja island and Corregidor lighthouse in line, with Luzon point bearing 330° (*N. 31° W. Mag.*), flying her national colours, together with International Code number and there stop until communicated with by the Harbour Patrol Vessel which will be in that vicinity. In the event of the absence of the Patrol Vessel from this locality, the vessel will proceed at a speed not exceeding five knots toward a line joining Guardia shoal and La Monja island, and there await instructions from Cochinos point Signal Station; this line shall not be passed until permission to do so has been granted.

5. In the event of a vessel being ordered by the Patrol Vessel or Cochinos Signal Station to proceed into Mariveles harbour, she shall under no circumstances cross to the eastward of a line joining Gorda point and La Monja island.

6 When a vessel has been granted permission to proceed through the North channel she will be given a code signal which shall be hoisted immediately and kept flying while within the restricted area above described. Under no circumstance shall she, on entering, pass a line joining Gorda point and La Monja island without displaying this signal.

7. The Cochinos Signal Station is provided with International signals, but routine signals may be made by shapes; that is to say, by ball, cubes (showing as squares), and cones.

9. In case of a typhoon, a vessel arriving off the entrance of the North channel, and seeking shelter at night, shall burn a flare-up light at intervals. The signal granting permission to enter will be a rocket followed by two green stars, and this signal shall be repeated by a rocket fired from Corregidor. The vessel will then be entitled to proceed to an anchorage in Mariveles bay.

Failure to comply with any of the above regulations may result in the destruction of the offending vessel.

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the *Rabi* Crops of Bengal for 1918-19.

(Note.—On an average of the five years ending 1916-17 the area under summer rice in Bengal has represented some 20·8 per cent. of the total area under rice in British India.)

Character of the Season.—There was a general want of soil moisture at sowing time owing to the unusual drought in October. The weather continued dry up till January. The rainfall during that month, though beneficial, came too late to ensure a normal crop.

Acreage.—The normal area under the different *rabi* crops in the Province dealt with in this forecast is estimated at 3,904,800 acres. The area actually sown this year is reported to be 2,915,100 acres against 3,017,300 acres (revised) last year. Of this, the area under summer (*boro*) rice is returned at 369,700 acres against 370,200 acres of last year. The decrease in area was due to want of soil moisture at sowing-time.

Outturn.—According to the estimates of District Officers the outturn of the different *rabi* crops for the Province as a whole works out to 72 per cent. of the normal against 77 per cent. of last year, the returns from more important *rabi* districts being as follows :—Nadia 38, Murshidabad 63, Jessore 50, Burdwan 78, Midnapore 60, Rajshahi 69, Jalpaiguri 80, Rangpur 86, Pabna 60, Malda 60, Dacca 69, Mymensingh 72, Faridpur 78, Bakarganj 100, Tippera 71 and Noakhali 100.

Summer rice crop.—The outturn of summer rice according to district estimates is 72 per cent. of the normal. The gross yield of the crop for the Province on the basis of a normal yield of 14⅓ maunds of clean grain per acre is thus estimated at 2,802,900 cwts. against 2,827,300 cwts. last year, or a decrease of about 0·86 per cent.

RESOLUTION ON THE RECOMMENDATIONS OF THE PUBLIC SERVICES COMMISSION REGARDING THE PROVINCIAL CIVIL EXECUTIVE SERVICE.

GOVERNMENT OF BENGAL.

APPOINTMENT DEPARTMENT.

CALCUTTA, THE 25TH MARCH 1919.

RESOLUTION—No. 2160A.

READ—

Report of the Royal Commission on the Public Services in India.

THE Governor in Council is now considering the recommendations of the Public Services Commission regarding the provincial civil executive service, and this resolution is published with the object of giving persons interested in the subject an opportunity of expressing their views on the various issues involved. Some of these are connected with points relating to the Indian Civil Service which were discussed in the Local Government's resolution No. 1645A., dated the 10th March 1919, to which reference may be made. The main points affecting the provincial executive service are indicated below.

2. **Status and Title.**—The Commission proposed no radical change in the constitution of the provincial executive service. That service, as they explained, was created for the performance of duties in connection with the civil administration of the province, which, though important in themselves, involve a smaller degree of responsibility than those which fall upon the members of the higher service. The Commission, therefore, recommended the retention of the present distinction of status between the provincial executive service and the Indian Civil Service, and this conclusion has generally been accepted as sound. The Commission, however, proposed a change in the title of the provincial service. They noted that exception has been taken to the use of the term "Provincial" in the official designation of services, and recommended that the provincial civil service in Bengal should, in future, be called the "Bengal Civil Service."

3. **Recruitment.**—Recruits for the provincial executive service are at present obtained from two sources :—

(1) by promotion from the subordinate executive service ; and

(2) by the direct recruitment of candidates possessing certain prescribed qualifications.

Ordinarily 35 per cent. of the appointments are filled by the promotion of persons already in the service of Government and the remainder on the nomination of Commissioners of Divisions, the Syndicate of the Calcutta University and the Governor in Council. At present the indispensable qualifications of a candidate for direct appointment are :—

(1) that he is a natural born subject of His Majesty or of a Native State ;

(2) that he is not under 20 or over 25 years of age ;

(3) that he is a graduate ;

(4) that he is of good character ; and

(5) that he is of sound health, good physique and active habits and free from organic or bodily deformity.

The Commission were impressed by the advantages secured for services recruited in India under a system of direct recruitment, and they advised

that 50 per cent. should be laid down as the maximum amount to which promotion from the lower ranks should be permitted to extend. They also approved the practice at present followed in Bengal of recruiting from the subordinate executive service only. As regards the methods to be adopted in selecting candidates for direct appointment to the service, the Commission considered that until education was more equally diffused among all communities in India, it would be premature to introduce any general system of competitive examination. They proposed that the present selecting authorities should be replaced in each province by a committee consisting of three officials and two non-officials and including two Indians, who would advise the local Government in the choice of candidates. The Commission pointed out that if the field of selection is restricted to candidates possessing the highest educational qualifications only, it is probable that certain classes of the community would get insufficient representation in the cadre of the service. They, therefore, proposed that the selection committee, while giving the first place to suitable young men who have passed best in the University examinations, should also submit to Government the names of candidates who have done less well, but who, for other reasons, appear fitted for the public service.

4. As regards the feasibility of adopting some system of competitive examination for the selection of candidates for the provincial civil service there are further considerations which should be borne in mind. The present method of nomination probably secures as good candidates as could be obtained in any other way, and it has the advantage of enabling Government to provide for different classes and interests in the public service. But several hundred candidates come forward annually for ten or a dozen vacancies, and the system involves much work and worry not only to Government and its officers, but also to private persons from whom recommendations are actively sought. Moreover, the system tends to arouse in the rejected candidates and their friends feelings of resentment and dissatisfaction which they could not reasonably entertain if the selection were made in an automatic and impersonal way. Unrestricted competition would, however, produce an unwieldy number of candidates, and would render it more difficult to secure the adequate selection of candidates of the Muhammadan and other communities, whose interests are safeguarded under the present system of nomination. It has been suggested, therefore, that if the competitive system is introduced, some minimum educational qualification, such as the possession of a University degree, should be insisted on, and also that only those candidates should be allowed to appear who are certified by a selection committee to possess the necessary moral and physical qualifications. The interests of special communities could be safeguarded by reserving for them a certain number of appointments to which candidates possessing the necessary minimum qualifications would be admitted either by nomination or as the result of a competitive examination among themselves. The existing age limits might be retained for all candidates.

5. **Probation and training.**—At present officers appointed direct to the provincial executive service are treated as probationers for a minimum period of one year during which they draw an allowance of Rs. 100 a month. Thereafter, if their work is satisfactory, they are eligible for appointment to the lowest grade of the cadre as vacancies occur. The Commission propose to fix the period of probation definitely at two years and to increase the probationers' allowance to Rs. 150 a month. They also propose that probationers should undergo a course of practical training similar to that of Assistant Collectors in the Indian Civil Service; this is already the practice in Bengal.

6. **Salary.**—Excluding probationers, the service is at present divided into seven grades on salaries ranging from Rs. 250 to Rs. 800 a month. Promotion is often slow and always uncertain, and the Commission have recommended the substitution of an incremental system. For the bulk of the service they proposed a scale rising by triennial increments of Rs. 40 from Rs. 250 to Rs. 450, with a further final increment of Rs. 50 after an officer had spent three years on Rs. 450. Thus all officers, unless their promotion

was stopped for bad work, would rise to Rs. 500 after twenty years' service. Above Rs. 500 there would be a number of selection posts equal to 15 per cent. of the total strength of the service on a higher scale of Rs. 600—40—800 a month, and a further selection grade on Rs. 1,000 a month, comprising 2 per cent. of the cadre. Officers of the provincial service would also be eligible for promotion to a limited number of Indian Civil Service posts, a matter which is discussed in paragraph 11 of the local Government's resolution No. 1645A., dated the 10th March 1919, on the proposals relating to the Indian Civil Service.

7. **Leave.**—The Commission recommended that members of the provincial service should continue to serve under the Indian Service leave rules, subject to the changes outlined in paragraph 82 of the report, the most important of which is that such officers should be permitted to accumulate privilege leave up to four months. It is proposed that officers promoted to hold Indian Civil Service posts should remain under the Indian Service leave rules.

8. **Pension.**—The Commission recommended the application to the provincial executive service of the proposals contained in Chapter XI of their report for the revision of the pension rules. These may be summarised as follows. Officers should be required to serve 30 years for full retiring pension, but may at the discretion of Government be permitted or required to retire after 25 years' service on a reduced scale of pension. The present maximum limit of Rs. 5,000 after 30 years' service would be increased to Rs. 5,200 per annum after 26 years' service, advancing Rs. 200 a year to Rs. 6,000 per annum after 30 years' completed service, while in addition the Commission proposed that officers of the provincial service promoted to hold Indian Civil Service posts should be entitled to an additional pension of Rs. 300 per annum for each year of approved service in such appointments, subject to a maximum of Rs. 1,500 per annum. The Commission have further proposed the extension to the provincial service of the rule at present applicable to some of the Imperial Services under which inefficient officers may be retired at any time on a pension not usually exceeding, but not necessarily so great as, that which would be payable to an officer of the same seniority invalided out of the service.

9. It is requested that any remarks or criticisms which any person or body of persons interested may desire to offer on the matters discussed in this resolution may be forwarded to the Chief Secretary to the Government of Bengal not later than the 15th May 1919.

ORDER.—Ordered that a copy of the resolution be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council,

J. H. KERR,

Chief Secretary to the Govt. of Bengal.
